

Dear PEV Colleague,

We would like to have you “save the date” and notify you to our statewide workshop on Plug-In Electric Vehicles (PEV) Infrastructure Planning that will be held on Wednesday, January 30, 2013. This staff workshop is being held by the California Energy Commission in coordination with the Governor’s Office and the Air Resources Board. This is your opportunity to join key stakeholders in developing the Statewide PEV Infrastructure Plan.

The staff workshop will be held at the Energy Commission building at 1516 Ninth Street, Sacramento, CA in Hearing Room A. It will bring together key stakeholders from across the state to discuss collaborative actions that can accelerate the PEV market regionally in California through their input to the development of the Statewide PEV Infrastructure Plan. Participants will include: local and regional governments, auto manufacturers, infrastructure companies, consumer groups, workforce experts, state government leaders, and many more important voices.

The workshop will provide a “roll up your sleeves” opportunity to align local and regional strategies with the State in its effort to build out the infrastructure.

In order to attend, please RSVP by [clicking here](#). Due to high demand for this workshop, we are asking you to RSVP by Friday, **January 11, 2013.**

We hope you can join us at the workshop. Thank you for your attention on our request to respond in a timely fashion.

Mr. Lindsee Tanimoto
Electric Vehicle Team Lead
Emerging Fuels & Technologies Office
Fuels & Transportation Division
